

Jem Angkasa Wijaya

Operations & Digital Systems Specialist

Surabaya, East Java, Indonesia (Open to Remote Opportunities) | +62 812-7356-7384 | jemangkasa.work@gmail.com | [linkedin.com/in/jem-angkasa-wijaya/](https://www.linkedin.com/in/jem-angkasa-wijaya/)

SUMMARY

Business Information Systems graduate (GPA 4.00) with hands-on experience in full-stack web application development (TypeScript, Next.js, Laravel), database modeling, and deterministic AI/RAG automation systems. Experienced in architecting end-to-end digital platforms, developing automated LLM pipelines, and translating complex operational requirements into reliable, high-performance systems. Proven ability to collaborate within Agile teams, coordinate cross-functional logistics, and structure complex operational data into clear, maintainable processes. Currently pursuing a long-term remote individual-contributor role focused on technology, systems, and business operations.

COMPETENCIE

- **Web & Application Development:** TypeScript, JavaScript (ES6+), Next.js, React.js, PHP, Laravel, HTML5, CSS3, Tailwind CSS, Python, C#, RESTful APIs, and responsive UI design.
- **Data & Systems Architecture:** Supabase / PostgreSQL, MySQL, relational database modeling, schema normalization (3NF), CRUD operations, spreadsheet-based data reconciliation, and operational reporting.
- **AI & Workflow Automation:** LLM prompt engineering & prompt chaining, Supabase Vector RAG, deterministic RAG pipelines, Gemini custom gems, AI-assisted workflow configuration, and n8n webhook automation.
- **Tools & Methodologies:** Git/GitHub, Docker (basic), Notion, Trello, Figma, Agile/Scrum collaboration, systems documentation, and partner onboarding.

PROFESSIONAL EXPERIENCE

PT Karya Buah Tropis (Gudang Buah Beku) | Surabaya, Indonesia

Director — Operations & Digital Systems | July 2020 – Present (Currently part-time advisory)

Small family-owned frozen-fruit distribution business

- Managed end-to-end stock recording, sales invoicing, and order dispatch workflows to support daily commercial frozen fruit distribution.
- Developed and maintained the company website and digital B2B catalog covering 90+ SKUs, securing 5 regular commercial clients within 3 months of launch.
- Standardized operational logistics and inventory handling into structured SOPs, spreadsheet tracking models, and vacuum packaging branding assets.

PT Kolaborasi Kerja Indonesia (Enevti) | Jakarta, Indonesia (Remote)

Partnerships Specialist Intern | January 2022 – April 2022

- Conducted thorough prospect research and data profiling to build an organized partner database, successfully onboarding 15+ brand ambassadors.
- Collaborated within an Agile/Scrum cross-functional team, supporting recurring sprint activities and product backlog reviews.
- Streamlined ambassador onboarding workflows using standardized briefing documentation and supported community AMA sessions.

Quarter Life Projects | Jakarta, Indonesia (Remote)

Backend Developer (Volunteer) | January 2022 – April 2022

- Redesigned and normalized relational database schemas (3NF) to improve query structure and reduce data retrieval inconsistencies.
- Developed a multi-category Mentorship Filter feature, simplifying user search flows and accelerating mentor discovery on the platform.
- Collaborated with the product and tech team to test and debug backend endpoints using Postman to enhance platform experience.

Screening SDM Indonesia | Surabaya, Indonesia

Character Assessment Specialist — Software Development & Reporting | November 2014 – July 2017

- Developed a proprietary C# desktop software utility to automate the calculation of biographical data and candidate evaluation metrics.
- Replaced manual calculation worksheets with an automated software workflow, reducing client report preparation time.
- Gathered user requirements from assessment practitioners to refine data input forms and ensure reliable report outputs.

SELECTED PROJECTS

Interactive Portfolio: JAW12.github.io | GitHub: github.com/JAW12

The Secret of Life & Hermes AI Engine | 2025 – 2026

Python Data Engine, Hermes AI Orchestrator, LLM Prompt Chaining, Canva Typesetting | Live: thesecretoflife.id

- Built Python preprocessing scripts and configured Hermes agent runtime to orchestrate multi-pass LLM prompt chaining for coherent, deterministic 150+ page customized book manuscripts.
- Integrated Canva visual typesetting templates and Google Flow quote graphics, reducing end-to-end luxury hardcover compilation time from weeks of manual writing to 1 week.

CocokGa: AI-Assisted Compatibility & Personality Synergy Platform | 2025 – 2026

TypeScript, Next.js, Node.js, Prisma ORM, PostgreSQL, Mayar QRIS Webhooks | Live: cocokga.my.id

- Engineered an interactive relationship compatibility platform across 4 architecture generations (V1–V4), executing deterministic algorithms client-side (<15ms) for zero-cost compute.
- Built multi-tier monetization integrating automated Mayar QRIS payment webhooks (instant Rp 21.000 unlocks), 10+ page PDF analytical dossiers, and reseller campaign tracking.

CatatCrypto & Quant Research Suite | 2022 – 2023

PHP, Laravel Framework, MySQL (3NF), JavaScript Charting, Tailwind CSS | GitHub: github.com/JAW12/TA_CatatCrypto

- Designed and built an institutional-grade crypto portfolio tracker and trading journal as an undergraduate thesis at iSTTS (Grade A / GPA 4.00).
- Engineered real-time DCA price tracking, floating PnL valuation, Risk-to-Reward (RR) analytics, and automated drawdown curve visualization over 3NF normalized schemas.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

- **Coordinator of Public Relations & Fundraising, iSTTS Gamers League (Sep 2019 – Nov 2019):** Led PR and fundraising committee, raising over IDR 7,000,000 in funding and securing sponsorships from Coca-Cola and Indomilk; supported event coordination for 30+ participating tournament teams.
- **Deputy Chief of Committee, Business Information System Freshman Orientation (Feb 2020 – Aug 2020):** Coordinated a committee of 20+ members to execute orientation programs for 30+ incoming students; developed the official orientation webpage.
- **Programming Tutor, HIMA SIB (Jul 2019 – Aug 2020):** Tutored freshman students in core Python programming principles, contributing to an 80%+ course passing rate.

EDUCATION

Sarjana Komputer (S.Kom.) in Business Information Systems, Institut Sains dan Teknologi Terpadu Surabaya (iSTTS)

August 2018 – May 2023 | GPA: 4.00 / 4.00

- Academic Honors: 4x Best Practitioner Awards (Basic Algorithms C#, Web Development, Client-Server Applications, OOP Java).
- Undergraduate Thesis: Crypto Asset Investment Portfolio Management and Trading Journal Website using Laravel Framework.
